OWI Predicts 6% Cut in Food Supply; Bombers Strafe Italian Supply Ports As Allies Close Axis Tunisia Trap; U. S. Promises MacArthur More Planes

Heleaged by Western Newspaper Bulon,

Typical of the harvest of Axis prisoners in the Tunisian campaign is this batch of German soldlers guarded by a Inno British Tommy. They were taken in the early stages of the drive northward, after General Monigomery's Eighth army had shattered the Mareth line.

SOUTHWEST PACIFIC: Battle for Air Control

While Gen. Menryo Sato, chief of | the Nipponese military affairs bureau in Tokyo threatened Jap nir raids oo the United States, enemy plenes continuing a battle for conthe approaches to Australia maunted a 100-ship raid at Milne Bay, New Guinea. Allied fighter planes, atert to the onager, shot 30 of the enemy raiders out of the sky.

Meanwhile. Allied air farces ronging over the vast battle area described by Gen. Douglos MacArthur os "our bomber line-the first | line of Australian defense" attacked a Jopanese convoy of slx merchont ships and three warships approaching the enemy base of Wewak, 450 miles north of Part Moresby, New Guineo. Three of the merchantmen were hit, including two 8,000-ton and one 5,000-ton ships.

In answer to warnings from General MacArthur's heodquarters of the increasing strength of Jop alr, sea and land force concentrations threatening Australia, Secretary of War Stimson promised that enough planes would be sent to the South Pacific to counter the rising Jop

TUNISIA: 81 to 3

As the Allied armies closed in on the Axis' last mountain bastions in Tunists, the gravity of Marshal Romanel's supply problem was shown by the heavy Germon reliance on serial transport fram Sicily.

That this supply problem would became even more critical was evident from two facts: 1-The Axls off in preparation for the eudgelling had icet all but three sirports in Tublows that will fall when dry ground = 00; 2-Rammel's thin supply line was being menuciagly depleted by

FOOD:

You'll Get Less in '43 Controversies might rage ove whether the Office of War Informatloa had or had not sugar-coated its estimates of forthcoming food shortnges, but the saber fact remained trol of the air over a wide area of that civilians will have at least 6 per cent less to ent this year than they consumed last year.

Warning that the food situation is serious, OWI experts soid, "There shortages of some kinds of fondsuch as canned vegetables . .

(and) . . , meet products." Civilians, however, will get enough to eat. In fact, compored to the prewar years they will have about 3 per cent more foad.

Among food supplies on the debit side for 1943, OWI roughly estimoted: 11 per cent less meat, 21 per cent less butter, 11 per cent less cheese, 3 to 25 per cent less canned vegetobles, 27 per cent less canned and shell fish. Among items on the eredit side, OWI calculated: 30 per cent more chickens, 57 per cent more margarlae, 13 per cent more frozen fruits, 7 per cent more wheat and 13 per cent more rye. Listed among food supplies that will be about the same as lost year were: Fresh and frozen fish, eggs, fluld mllk ond eream, ford ond other cooking fots, fresh citrus fruits, pototoes end sweet potatoes.

rent regulations will be continued.

Washington Digest

Terrible Hatreds Kindled By 'Blood Revenge' Spirit

Rumors From Embattled Nations Hint of Plans For Organized Extermination of Enemy Peoples.

> By BAUKHAGE News Analyst and Commentator,

WNU Service, Union Trust Building, Washington, D. C. It was a soft, Washington spring

nfternoon. The lote shifts of government workers were burrying home. The two guardian magnalias that stand on the White House lawn were tipped with the rays of the setting sun. My thoughts were nelther on this blissful scene nor on the latest news of the bn:tlefront which I had just finished broodensting. Frankly, I was concerned chiefly with dinner.

The announcer was just finishing the "commercial" and I was picking my het up from the sofa in the studio when I saw the engineer beckprogram was laaugurated as much oning to me from behind the gloss wall of his goldfish bowl. He held up o poper on which was printed

"Stop in News Room-Important!" I did. The atmosphere was tense as it is frequently these days. A notice had just oppeared on the news tieker to the effect that the White House was about to releose on important statement,

It is possible, but not probable, that the thing we were all thinking thet statement was going to announce but didn't, will happen before these lines reach print-the invasion of Europe. Until it does, we shall continue to expect it and white the busy home front keeps our nose pretty well to the grindstone, one hiat from oversens and an atmosphere of suspense envelops the Capitol.

Secrecy's Curtain

Meonwhlie, there is the feeting that tremendous things are happeaing under a heavy curtain of secrecy in Europe even the hint of which does not reach the press or the pub-

Russla, of caurse, is o mystery. What is happening there? Is the remarkable Red army, which la the post has seemed to be able to draw eadless mea ond supplies from nnwhere after each crushing defeat, finally exhausted? Spring come early to the steppes this year and the Germans, if they are able, will launch their oanuat summer offensive a month enriler. They hope to be oble to break the Red army this time and then hold back the remnants with a sporsely monned but Intricate line of defense while they turn their attention to the Allies in the West. No one knows whot the strength of

Russle la today. One does know that o terrible hate hos been enkindled in the whole race against the Germans and It is reported that the Red army hos threatened that If Soviet forces ever do reoch German soll, they will leave no human being llving. One story hos been spread through Switzerlond that If on Allies' army is on the continent when Russio breaks Germany's eastern frontiers-if she does-that the Germans will open their western front to the Allles and let them la rather than expose themselves to the Russians.

Plan for Prisoners

Another report has seeped out of Russia. It is continuously repeated that simply because of the inconvenience of earing for prisoners, both the Germons ond Russians hove been shooting men who ore coptured or who surrender. On the other hand, the Russions are said to be of the rococo vintage with peaked carefully preserving some of the and pointed and turreted roofs. men they take. Russlan propaganda, dropped over the German lines, as well as air moil, according to

out for Saviet Indoctrination. They go through a long course of lnstruction so careful that it is said finally only 10 per cent are accepted as hovers just beyond the horizon. The satisfactory. These elite are then chief purpose of Manpower Commistrained to be used as the spenrhead

of a palitical invasion of Germany. polnoued all Europe. There is a be-Hef now on the part of many of the conquered countries that the Germann, having given up hope of vietory, intend to go forward with a systematic extermination of other races within their reach, as they have in Poland and with the Jews,

numerically when the war is ever. To meet this, the other antions are talking about turning the tables and beginning organized mass murder of Germons everywhere the moment the Nazi armies lay down their Only the other day, I talked with

a widely traveled Russian newspaper man, who said fronkly that he believed this was the proper course. How powerful this spirit of blood revenge really is and whether it will be entried out, one ena only guess.

Another mystery of which there are only tiny hints is the power and scape of the underground movemeats in the eccupied countries and the extent to which Allied agents are now working hand-in-hand with the saboteurs in France and Belgium and particularly Halland, Hints took

Saboteurs

A secret German report which reached Allied hoads stated the fol-

"Sometime ago, English parachutists landed near Prague. When they were held up by the local police, they obeyed the order, 'handa up.' But they earried a special device on their belts with a pistol from which cords ran to their haads. The latter fired the pistol. Thus they succeeded by a quick and appropriote movement in necesuating for the policemen."

Here is a port of another enemy report, reveoling the activitien behind the lines. It came through Itotian military chonneln:

"During the attock on the Fuka Aerdrome (Africo) the enemy Allied traops put up distress signals. They aucceeded in enticing the sentries away from their posts for a time and successfully earried out their sabotoge."

Reports have come of British saboteurs gaining entrance to factories in the daythne, planting time bombs ond lenving. A device has been perfected which con be earried concealed in the hand-I have held one-attached by a clever means to a tunk car or a locomotive, it would blow it to piecea. That is only one of hundreds of ingenious gadgets which have been perfected for this strange work of secret destruction that is going on everywhere. Even more ingenious are the methods which the underground organizations in France and Italy are using to obtain arms and aupplies for the insurrection when the moment comes.

Some day, "an Important statement from the White House" will come, herolding events many of which we have not even dreamed.

While the olrplane factories turn out bombers and fighters, the alrminded leaders continue to make their air plons for peace. The lotest scheme which has come to my attention is an announcement from the Northeast Airlines company which snys this company has made application for a helicopter service to earry air mail and air express in New Englond.

These little planes that con rise straight up and hover, can land on a parlor rug. They would, in this proposed service, land on the roofs of post office buildings-provided, I toke lt, that the buildings ore not

The service would earry first-class Is very alluring. Some of the pani- the opplication filed with the Civil phlets instruct the Germon soldiers | Aeronauties board. Four hundred to surrender and bring with them points would be included. The little the leastet which nets os a passport. "flying automobiles" would not only Then, according to a report which fly between towns and cities but has come in from a neutral country, would entry mail from urban centers the prisoners are carefully exam- to the large airports where the mail ined and a small percentage weeded would be transferred to the nir liners.

sloner McNutt's Intricate plans, including shifts of men from non-Hatred, like that in Russia, has deferrable industry to war work is ta build the machinery so that when the act is passed it can be put into effect at once.

Now that the farm labor problem has been taken off McNutt's doorstep, and with the definite "back-tothe farm" trend, congress may ease so that regardless of what happens, money he needs to build his preup on McNutt and give him the the Tentonic shock will timplicate intional service machinery.

To remove old wallpaper, wet with a solution of one inblespoon of saltpeter in a gallon of water. Works best if the water is hot.

If a little piece is chipped off walnut furniture, touch up the spot with iodine applied with n piece of eotton, then go over the surface with furniture polish.

A clean, well-kept Iron gives effleient service. With a damp cloth, wipe off any starch marks. If the iron sticks while pressing, rub it over salt sprinkled on o paper. Once o month rub the worm iron with beeswax or parailin and then rub over a clean cloth or paper until the excess wax is entirely removed.

When the soldier talks about "the skipper" he means his captain, the head of his company. And that's just what the title "captain" means. It comes from the Latin word "caput" meaning "head." Another leader high in the Army man's favor is Camel eigarettesthey're first choice with men in the Army. (Based on octual sales records from service men's own stores.) When you're sending gifts from home, keep in mind that a carton of cigarettes is olways most welcome. And though there are Post Office restrictions on packages to overseas Army men, you con still send Cameis to soldiers in the U. S., ond to men in the Navy, Marines, ond Coast Guard wherever they are.-Adv.

Political Trend

Republican election victories in two cities in the past week are considered proof that the trend away from the New Deal has grown infinitely since last fall. Local issues did not greatly influence the results, in the opinion of observers. The vote was an expression of resentment, disgust and lack of faith in the New Deal and its management of both the

war and of domestic affairs. leston elections.

Alpha Strating Laute WHEN PERSON WHEN

The Muclinton Janeant,

FOREWORD

This story was told me largely in the officers' quarters of the Molor Turpedo Roat station at McIville, Phode Island, by lour young officers of MTR Squadron 3, who were all that was left of the squadron which proudly sailed for the Philippines last summer. A fifth officer. Lieutenant Henry J. Brantinghom, bas since arrived from Australia.

These men had been singled out from the multilude for relum to America because General MacArthur believed that the MTB's had proved their worth in werlare, and hoped that these officers could bring back to America their actuel battle experience, by which trninces eould benefit.

Their Squadron Commender, Lieulenant John Bulkeley (now Lieutenant-Commander) of course needs no introduc-Oon, as he is already a national bero for his pert in bringing MecArthur out el Bainan. Out because the navy was then keeping him so busy luifilling his obligations as a national hero, Bulkeley hed to delegate to Lieutenant Robert Botling Kelly a major part el the task of rounding out the narrative. I think the reader will agree that the choice was wise, for Lieutenant Kelly, in addition to being a brave and compelent naval offieer, has a sense of narrntlys and a keen aye for significant detail, two attributes which many never help him in battle but which were of great value to this book. Ensigns Anthony Akers and George E. Cox Jr., also contributed much vivid

As a result, I found when I had finished that I had not just the adventure story of n single squadron, but in tha background the whole tragic penerams of the Philippine campaign-America's

We are a democracy, running a wer. If our mistakes ore concessed from us. they can never be corrected. Focts are frequently and properly withheld in a war, because the enemy would take adventage of our wenknesses if he know them. But this slory now can sofely be told because the sad chopier is ended. The Japoneso know just how inadequate our equipment was, because they destroyed or captured practically all of it.

I have been wondering in and out of wars since 1939, and many times before bays I seen the sad young men come out of battle-come with the whistle of flying sicel and the rumble of fniling walls still in their enrs, come out to the fol, well fed cities behind the lines, where the complacent citizens always choose from the newsslands those papers whose headlines proclaim every skirmish ss o magnificent victory.

And through those plump cities the sad young men back from battle wander as sirnngers in a strange land, talking a grim language of reelism which the smug chizenry doesn't understand, trying to tell of a tragedy which few enjoy

These four sad young men differ from those I have talked to in Europe only in that they ore Americans, and the tragedy they bear wliness to is our own fotlure, and the smugness they struggle against is our own complicency.

CHAPTER I

"You don't understand," sold the young noval officer, "we were expendoble." He was very eornest as he lolled on the bunk in the officers' quarters of the torpedo station ot Newport, olong with the other three officers who had olso just got out of the Phllippines.

I admitted I didn't understand. "Well, It's like this. Suppose you're o sergeant machine-gunner, and your ormy is retreoting ond the enemy odvoneing. The coptoin takes you to a mochine gun covering the rood, 'You're to stny here ond hold this position,' he tells you. 'For how long?' you osk. 'Never mind,' he answers, 'just hold it.' Then you know you're expendable. In o wor, anything con be expendoble-money or gasoline or equipment or most steel until you're killed or enptured, holding up the enemy for a few min-

an hour. "You know the situation-that these few minutes gulned are worth the life of a man to your army, So you don't mind it until you come back here where people waste hours. and doys and comethines weeks, man you've seen your friends give their fives to save infantes."

utes or even a precious quarter of

"Last, never mind about that," said Lia detent John Bulkeley, the employ officer, "Frequen don't like to hear about that I've instrued that to the reach fine heart lines. Lat's stays at its longlerestrig. And first a मा हते को भी धहा

THE RESERVE AND ADDRESS OF THE PERSON NAMED IN

machine guns-firing in pairs from each side. As for armor, well, there'n a story on that. The first time we tangled with the Japs one of our mochine-gunners kept erouching down behind the shield which rose just under the noses of his guns, When it was over we asked him why he hadn't stood up to fire.

"'Hell,' he said, 'I dldn't want to get nicked. I was erouching down behind that armor.' Then we had to tell him that shield was %-inch plywood-keeps sproy out of your eyes, but it ean't stop nnything the Jops might send. There isn't on ounce of ormor steel on the boat-we're little eggshells, designed to roar in, let fly a Sunday punch, and then get the hell out, zigging to dodge the shells -but again I'm gettlng nhead.

"We went out to the islands last foll. I was commanding officer of the squadron-I'd picked every officer and man in the outfit from volunteers-told them we were heading for trouble. So they piled us and our six boats on a tanker. In lote sum-

"They expect you to stay there until you're killed or eaptured."

mer, we snuck through the Panamn Conal one night, and were steaming up Manila Bay in the eorly fall.

"On my woy back here lost week, I had o few hours in Honolulu, ond the boys were still tolking about how they'd been surprised on December 7. I don't know why they should hove been, because they got the same worning we did in Manilo. Thot war was maybe days, perhops even only hours, awoy. The only thing that surprised us was that it was Pearl Harbor thot got the first attock, not us.

"We'd been following the negotiotions. We knew we needed sixty more days to put the islands in shope for decent defense. We needed plones ond tonks. Most important of oll, at least half the Fillpino usually men. They are expending ormy had never had o uniform on you and that muchline gun to get until o few weeks before the fighting ilme. They don't expect to see ci- started. They needed training, and ther one again. They expect you to Washington knew this just as well stay there and spray that road with as we did, and of course didn't want war.

"But now for a little geogrophy. Hero's Manila Bay-a blg beautiful harbor twenty miles neross. At the far end is the city of Monlin, and if you were suddenly put down there, you'd think you were in Los Angeles, until you notlend the faces of the people. At the mouth of Manila Bay, the upper lip is Bataan Penhania and the lower one is Butnugas, with the Rock-Corregidor Island-a hard little pill between the two lips. And we are stationed at Cavite, the blg American naval base on the lower aids of the buy, about halfway between Mundla and the harbor's meuth.

"We're under orders of Athules! Bact, who is Commander in Chief of the Par Eastern fleet, luned Digie, Unly how long will we stay? Resented as war draw close, rumore Lagair In fly, If it come adon, wa totalit for Building out the mounted too dign't foren all amountly the Japa freit fier deinen freier Perintenn und beg mit fitte Antalia flout, an imprine was I be pulling out for the acuthorn In he le mufflig for alleraft catifora mi, be war biettig Aufrigen bo peres

"The message said I was to come

on down to the Commandantia, continued Bulkeley. "It's an old thick-walled Spanish building, and when I got there, Admiral Rockwell, who was in command ot Cajust opposite Corregidor."

the secret operation orders-what the fleet would do under any of mignon I could buy there, plus brondy and o elgar. I figured I'd ot least have them to remember.

"We spent that first day fully monned, anticipating a bombing attock. Five of the boats were dispersed along the shore about a hundred yards apart-the sixth was patrolling. All dny we loaded them with food-enns of corned beef, Vienna sausage, vegetables, ond eauned potatoes - don't laugh at that, it's better than rice-conned fruit, fruit, coffee,

"I saw the first planes obout noon flying out over the boy. At first I thought they were ours, but ofter about a minute our shore batteries opened up. They were coming over at 20,000 and of course Immediately we shoved all our boots off and out into the bay. But we heard nothlng drop. It was probably just a reconnnissance rnid-feeling us out.

"Of course there were all kinds of rumors - that Zomboanga and Davao, down in the southern nrchipelago, had been taken. Also that our navy patrol planes had gone up to Northern Luzon to intercept Jap transports gothering off Aporri there. We even heard our aircraft tenders had been surprised and taken, but thot one proved false. Yet that morning, nothing was sure.

"About three o'clock orders come from Squadron Commander Bulkeley to send three boats, under my command, over to Mariveles on Batoan ond report to the submarine tender there for food, woter, and torpedoes, and to remain on the reody-available to go out and attock onything he ordered us to. By five o'clock we east off. We hod some possengers to deliver at Corregidor, so it was eight ond plenty dark before we were outside the mine fields, feeling our way into Mariveles. We thought we knew those mine fields, but in pitch-darkness, with the mine-field lights turned off and of course no lights on our boots now, it was something else agoin.

"At this point the army took over. They heard the roar of our motors and thought it was Jap planes. Searchlights began winking on all over Bataan, feeling up into the sky for planes—our motors were echoing against the mountains on Bataan, so they couldn't tell where the noise was coming from. Every artillery post for twenty-six kilometers around we were going to be blown to hell by a mine or by one of our own shore batteries.

"But finally we snaked through, tied up alongside our sub tender, gelistic effort. They belong together, and then its skipper delivered a plece of nasty news. Told us he had orders to get under way just before daylight, out to sen-didn't | 18-24). know just where they were sending hlm-mnybe south, maybe the Dutch East Indies, anyway, he wouldn't be back.

CHRIST'S CHARGE TO PETER

LESSON TEXT-John 21:15-24. GOLDEN TEXT-Greater love bath no man than this, that a man lay down his tite for his friends .- John 15:13.

Breakfast for a hungry fisherman -that is what our loving and vite, and Coptain Rny, his chief of thoughtful Lord had provided on the staff, were already dressed. Dawn shore of Galilee. He wanted to talk was just beginning to break over to Peter, but He knew this was need-Monila Bay, and the Admiral was ful first. There are some falk who watching the sky. 'They ought to think that following Christ is a dolebe here any minute, he said. And ful matter, devoid of every pleasure, then he told me to prepare my six Jesus never laught any such thing. boats for war stations. They were He attended weddings and dluners going to send us over to Batann at even in the homes of those despised the noval bose in Mariveles Herbor. by men. But remember that He always did it for their spirltunl good, "I was prepared for the war," sald not merely for His own enjoyment; Kelly, the squadron's second in com- and that He always brought the gathmand, a tall blond lieutenant with cring up to His own spiritual level, quick blue eyes. "I'd heard about rather than stooping to any werldly or wicked standards.

Here we find Him with a glowing three eventuolities, so the night be- fire upon which fish is breiling, and fore I'd gone over to the Army ond with bread ready for these hungry Navy Club at Monila ond put aboard men. It was just like Hlm thus to the thickest charcool-broiled filet | meet in most delightful and satisfying fellowship those wha serve French fries and a big tomato with Him. Draw up to the fire, Christian Roquefort dressing, finishing off with friends who are standing nfar off. You may be so thuld that, like the disciples, you will not dare to ealt Him by name (v. 12), but if you will come, you will find that the precious fellowship will soon warm your heart.

With the menl over, Christ turned to Peter and in their conversation we find the latter required to

I. Faco Responsibility (vv. 15-17) With kindly persistence our Lord brought Peter foce to face with his responsibility of full-henried devotion to Him. Before service can be rendered there must be a right relationship to the Lord.

Three times Peter was asked to declare his love for Christ. Such a public canfession was quite in place, before the man wha had thrice denied his Lord was restored to a place of leodership. The words "mure than these" (v. 15) Indicate that Jesus was osking of him a high micosure of devotion. It is no more

than He has a right to expect af us. The conversation after brenkfast that morning was n very profitable one. One is reminded, by contrast, that few of aur mealtime discussions are very useful. Many (perhaps most) nfter-dinner speeches and conversations yield little profit. Here is an occosion when such wos not the cose. One wonders whether wc would not be wise to toke the suggestion and turn our thoughts and those of our dinner guests to spirituol things. Surely it should be so among Christian friends and in a Christion home.

II. Feeding Christ's Flack (vv.

We review the some verses to point out that an expression of love to Christ means nothing except as it manifests itself in service. Llke Peter, we are to be diligent about feeding His flock, whether they be the young and inexperienced lambs, or the mature sheep of the fold.

We tend to specialize. Even in soul-winning some give themselves to child evangelism while others reach only adults, ond would hardly think of deoling with a child. True it is that we have varying gifts, and one does one type of work better than another. But let us avoid overspecialization. Every needy soul is a challenge to us as we present the gospel.

The word "feed" should be went on the alcrt, and for a few stressed. Here ngain the church has minutes it was a question whether frequently failed. Men and women arc won to a decision for Christ, and then forgotten. Sheep must be fed if they are to grow. A teaching ministry must accompany the evanand to neglect either is to fail, at leasi, in that measure.

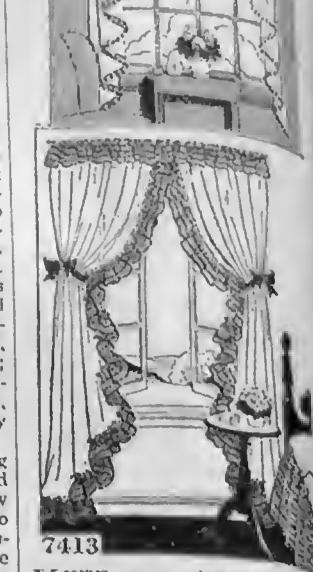

III. Follow Hlm to the End (vv.

Endlessly ingenious are the devices of Satan. He who had sifted Peter like wheat (Luke 22:31) and had rejoiced in the weakness of his "So then the fun began. Thera denial of Christ, now saw him stepwe were-no base, rations for only ping out into victorious living. He ten days, and a big problem in how heard the prophecy of the martyr we were to live mirselves and what death of Peter. So he put into his in hell we would do with the boats heart a question. Why should he when the planes came over. In ad- suffer? What about John? What

Neat Trick for Stretching Meat-Sernpple (See Recipe Below)

Make Red Points Work!

Making red points fit your menus and still give you plenty of valuable proteins and fats on which to do a man - sized day's work is like working out a jig-saw puzzle. But you

remember how

they nil can come

out if you try enough? The answer is in budgeting your points before you spend them, getting meats with low point value, and extending flavor of meat as much as possible.

First of all, let's realize that meat is a high quality protein, and that the body needs it for repairing and building tissue—which is a full-time job. We designate proteins as complete and incomplete, the ones which are complete do a complete job of body building and repairing. Complete proteins are meat, cheese, fish, poultry, eggs and milk.

Incomplete proteins are those which can do just part of the job, and in this class we have breads, cereals, beans, peas and nuts. Of course we can use these foods alternately or in combination with meat, when we cannot get enough meat to fill our requirements. But, nlways, please bear the difference in mind.

Pork is our foremost source of thiamin or vitamin B₁—sometimes ealled the pep and energy vitamin because of its important contribution to mental health. Here pork sausage is combined with a cereal for a really delicious "stretched" dish:

All-Bran Serapple.

(Serves 8) 1 pound fresh pork sausage

2 cups water

1 teaspoon salt

1/4 teaspoon pepper 1/4 teaspoon powdered sage

Few grains cayenne

% eun cornmeal

% cup bran cereal

Brown sausage in heavy skillet, stirring occasionally; pour off and save fat. Bring

water to a boil, add salt, pepper, sage and cayenne. Stir in cornmeal graduolly; cook until thickened, stirring constantly. Add bran ce-

real and sausage and mix thoroughly. Pour into dampened loaf pan; chill until firm. Unmold. Cut into 1/4-inch slices and brown in sausage fat on hot griddle. Serve with maple syrup ur apple butter.

Chicken is a complete protein and goes a long way, nicely in this 20 to 30 minutes. delightful fruity salad which you'll] enjoy serving company or Sunday night supper guesta:

Lynn Says:

The Score Card: With 35 mil-Hou homemalors carrying ration books to the grocers, new ways for managing finited foods are the order of the day.

Many of these housemakers are me untoned to milling off church from their aboves, or taking much free on food from their storage to born. Now they will have in please all possible facts from Inter of these processed funds, bullet their points entefully.

H's small to buy the sto of and the finally by the time ficile dual tamble. Reep a table of equivilents hamby in vent the second territories to be the profit to the Unite, 18 summer or war fluid professional two tons a fining trip 1 will this town

This Week's Menu *Stuffed Ven! Hearts Buttered Noodles Quiek-Cooked Green Cabbage Grated Carrot-Fresh Grapefruit Salad

Whole Wheat Rolls Rhubarb Sauce Cookies Bevernge *Recipe Given.

Orange-Chicken Salnd. (Serves 6) 11/2 cups orango sections 2 enps cooked chicken, mineed 1 cup diced celery 1/2 cup lemon french dressing

Lettuce and other greens Toss orange sections, chicken and eelery together with the lemon french dressing. Arrange on six individual beds of greens or lettuce.

Kidney beans are a second-class or incomplete protein food, but they are fine to use on that extra dny when there are no red points left over for meat. Dried peas and lentils have a low point value which makes them fine for tide-overs on meatless days: Grated cheese adds food value, takes only a few red points:

Kidney Bean Loaf. (Serves 6 in 8)

2 eups dry kidney beans

2 cups water 4 cups stale bread crumbs 2 eups grated cheese

1/2 cup chopped onion 1/2 eap shortening 1 egg

11/4 teaspoons salt 1/2 teaspoon pepper

Soak beans overnight in the 2 cups water. In the morning, bring to a boil in the same liquid and then simmer until beans are tender.

Mash beans fine and add all other ingredients, mixing well. Pack into a loaf pan and

bake 11/2 hours in a 325-degree oven. Baste occasionally with 1 tablespoon melted butter and 1/4 cup water.

You may use fish generously as a real menu aid during these days. Many types of fish are in season all the year round, and a great many other come in season during spring:

> Fish Loaf. (Serves 4)

2 eups flaked, steamed fish 1/2 teaspoon salt 2 eggs, separated

1 cup medium white sauce Combine, fish, salt, beaten egg yolks, white sauce and beaten egg whites. Pour into greased baking dish and hake in a moderate oven

*Stuffed Veal Hearts. (Serves 5)

2 year hearts 2 tablesprous chopped onion 14 cup chopped celery

2 tablespoors shortening 119 emps thic breat crumbs

34 teaspuon salt

bi teaspoon pepper !a enp water

3 inblespoors shortening

THE 2ND WAR LOAN DRIVE IS

The Command has Come_

THE big push is on! This is the fateful I summer that we have been waiting for. Hitler knows he must win before another winter rolls around, or face, inevitable annihilation. And you can be sure that he will hurl everything he has - every gun, plane, soldier and tank-into the summer struggle that is even now rising in tempo on every front.

And when the command goes our to our fighting men to ATTACK -- you can be sure they don't look for excases. They don't hesithre. They strike fast and hard-ar they did at Guadaleanal, in Tunisia and in the skies over linrope.

NOW the command has come on the home front in attack! To attack with the dollars that buy the weapons of war our boys must have to meet the last desperate assaults of Hitler, Your government asks you to lend it 14 hillian dollars during this drive. And this

historic 2nd War Lonn Drive, which w 1. and April 12th, is the most orgent appeal. In they has ever made!

The time is short-act not

When you attack with War Books . Jan suffer pain or anguish-you don'ted to limbs or your life as millions of a part is nre thing every day. All you do is " 1 115 investment—the safest in the w licip to secure Victory non and policip financial secucity.

During this drive if you are in the volunteer War flond worker, witcom & Day He will explain the 7 different operation a Government obligations you may the from. But don't wait for his call-gof. I ware to your nearest bank or Post Offer y where they sell War Bonds And 100 1 command to ATTACK by buyers Bonds and still more War II, . .

THEY GIVE THEIR LIVES.

WEEKLY NEWS ANALYSIS

U. S. Pledges Bombs to Japan's Heart; Allies Break Axis Mountain Defenses As Drive for Tunis and Bizerte Speeds; Russ-Nazis Locked in Caucasus Battle

(I:DITOH'S SETIM When opinions are expressed in these columns, they are these of Western Newspaper Union's news abalysis and not necessarily of this newspaper.) Released by Western Newspaper Union.

American arms, ammunittee and equipment were a patent factor in stepping up the fighting strength of French armies aiding the Allied cause in the Tunisian eampaign, Above, Gen. Henri Giraud (ecater), French high cammissioner of North Africa, is seen inspecting U. S. war equipment seat far Freach army use.

VENGEANCE:

For Jap Executions

Stern punishment for the Jap milltnry leaders responsible for the execution of American fliers captured after last year's rald on Tokyo was promised by President Roosevelt, who said the United States would On both the north and south fronts, "hald personally and officially responsible" nil those who particithem to justice.

That the Japs' barbarity was a confession of their vulnerability to air attack was cienr. This wns underscored by Tokyo broadcasts threatening to execute American fliers captured on future raids over

The reply to such threats was given by Maj. Gen. Henry H. Arnold, commander of the air forces, who told his fliers:

"Let your answer to their trentment of your comrades be the destruction of the Japanese air force, their lines of communication, and the production centers which offer them the opportunity to continue such atrocities."

To this Maj. Gen. James H. Doolittle, who led the Tokyo raid a year ago added: "Soon our bombers will be there again, striking nt the heart of Japan until the empire crumbles and they bog for mercy."

RUBBER:

Showdown on Oil Use

Rubber continued to be a controversial subject as William M. Jcffers, rubber director, came to grlps with Robert P. Patterson, undersecretary of war, and Harold L. Ickes, petroleum administrator, in a dispute over the use of gasoline in the synthetic production program.

Pattersoa, supported by Ickes, charged in a statement that Jeffers was weakening American air strength against the Axis by reducing combat supplies of high octane gas for the benefit of the civilian synthetic subber manufacturing schedule.

Stal at odds with Elmer Davis, GWI director, over publicity releases on the rubber program, Jeffere briskly took on his two new oppromis declaring that their charges es -! for in estigation to bring out the tracte to the public.

TUNISIA:

Nazis Counter-Attack

Fighting stubbornly to delay the inevitable day of reekoning, Axis troops sought desperately to pre-

German counter-attacks were followed by successful Aifled thrusts pated in these crimes and bring that wrested mountainous terrain from the enemy and forced the Axis armies nearer to their last-stand positions.

In the north, the British First army pushed southeast after repelfing major enemy assaults in the Payrollers on Call Medjez-el-Bab sector, destroying more than one-third of the Nazi tanks opposing them.

In the north, General Montgomcry's British Eighth nrmy made important gains in the strategic hill country north and west of Enfidavlile which brought it closer to Tunis.

Meanwhile, bombers of the Allied tactienl nir force kept up canstant attacks against the few remaining Axis-held airfields.

RUSSIA:

Caucasus Front Active

Continuing to employ "strive at nny cost" tactics, German nrmles In the Caucasus kept up full-scale attacks ngainst the Russians In the Kuban deitn despite heavy losses and lack of success in the early POISON GAS:

Two objectives were included in the Nazi plans, military observers believed. Onc was to relieve Soviet pressure on the enemy's bridgehend at Novorossisk. The other was to build up the momentum of a drive that might be the prelude to a new Axis spring offensive.

As the fighting increased in intensity, the netivity of the opposing air forces was stepped up. German communiques reported that the luftwaffe was straffing Red supply bases on the Black sca coast. Soviet communiques revealed that while Rcd nirmen had broken up one enemy effort to ferry reinforcemenis across the Black sea to Novorossisk, the Germans had succeeded later in providing substantial relaforcements for their nrmy in the Caucasus hrldgchead.

POSTWAR FINANCE:

Congress Holds Reins

U-BOAT DAMAGE:

More Ships the Remedy

Calling submaring lesses of United Nettons' shipping "heavy but not disastrous," the Truman senate committee revealed that approximotely 1,000,000 tons o month were sunk last year-or more than the total tomage built by the United States and Britain combined in 1942, Adding that losses were reduced

In the latter months of the year, the report declared: "The submarine mennee can and will be effectively Most effective answer to the

U-boat threat will be increases in new construction of merchant ships and escort vessels this year, the committee sald. The report estimated that between 18 and 19 miltian deadweight tons will be built in 1943, compared with 8,000,000 tons

Increased speed far newly constructed ships was promised through the building of new Victory models and the redesigning of Liberty ships to permit speeds of 15 to 17 knots compared with II knots for the present design.

VACATIONS:

Public Must Co-operate

Summer vacations by train for Americans remained a probability in spite of a ruling by the Office of Defense Transportation that no additional summer train service requiring the use of Puliman sieeping car equipment would be authorized. Rail officials expressed the belief that regular services would be sufficient to accommodate vncationists if the public is willing to accept inconveniences and co-operata by spreading travel throughout the week.

Only exception to the curtailment policy, the ODT stated, will be 'eoach trains operated in the periad between Saturday noon and Sunday midnlght utilizing primarily cammuter equipment otherwise idie in that period and additional trains vent the Affied armies from further of seml-commuter type operated on narrowing their fast hold in Tunisia, other days of the week within a radius of approximately 50 miles of

Ail other requests for extra coach or parior-car train service for dally, tri-weekly or week-end summer operations will be denled, the ODT in-

DRAFT:

Probability that many of the 840,-000 draft-cligible men on government payrolls would be inducted Into the armed forces was seen in the selective service's ruling that federal workers could not be deferred for 'occupational rensons except through examination of Individual cases by n special presidential committee.

Up to the present, thousands of government workers had been given deferred classification as essential. Selective service annuunced that effective May 15, the 6,500 local boards must submit monthly to Major General Hershey, for transmission to congress, the names and numbers of federal employees clasalfied as 2-A or 2-B, the classes of deferment for occupational reasons.

Washington Digest

Nation's Railroads Move 50,000 Troops Each Day

Special Surveys Decrease Cross Hauling; Developments Abroad May Force Unexpected Shifting of Troops.

By BAUKHAGE News Analyst and Commentator.

Washington, D. C.

Recently I had to make seven consecutive week-end trips between Washington and New York-I felt Washington after a late Friday broadcast and had to return Monday for one at noan. Not once was able to get reservations for the return trip until at the inst minute when some unused space was turned

If I graused a little too laudly over this, it may have been because didn't know then what I learned officially only the other day; namely, that "if the war department insisted in baving all the Puilman equipment it could use, all the Puliman cars of the country would be carrying troops." In other words, if Johnny Dough-

boy didn't step aslde occasionally, we'd all use coaches or walk.

Compromise

The present arrangement is said to be a compromise in recognition of essential civillan aceds. At present, a million and three-quarter soldiers are being moved n monththat is 50,000 a dny-in America's trains in official troop muvements. This does not include the many men on leave.

of whole divisions with full equipment but these are the exceptions. As you have probably noticed if you travel very much, there are usually a few cars containing troops ntinched to your passenger train. Thia is the way most of the troops are transported-in small groups of 250 or less. However, that la considerable addltlon to the regular passenger traffic.

that is one reason why food has to be rationed to civilians. But he travels a lot more in proportion to work in the capital. I have also hls normal civillan peregrinations. Many a man saw his first big city when he reached London or Calro or New Delhi. I know a pllot who dropped in at the airport here recently and had several hours waltover. When he was asked why he didn't cross the bridge and look the capital over, he said he'd never | and trolley cars. been in a blg city and didn't want to get lost. The next thing heard from this particular was that he was in Calcutta.

Average Number

In the last war, the average number of moves made by a soldier were three. Here is a list of typical moves he makes in this war, drawn up by the Office of War Information:

- 1. To the induction center 2. To reception center
- 3. To replacement training cen-
- 4. To his particular branch of service
- 5. To blg maneuvers
- 6. Return 7. To special training areas

8. To port of embarkation

Special studies are made to cut down unnecessary cross-hauling but sudden developments abroad may force soldiers who are located near one port to be shlfted to another far away. Or a special need for particularlzed training may arise and that may force men to be doubled back to desert or mountain for the spe-

Mancuvers in the southeast and southwest, including the desert trnining areas of Californin, have sometimes required the moving in of ns many as 300,000 men within a few weeks, equipment and all. Naturnly, that disrupted n large part of passenger trafile for several weeks at a time.

Unessential Travel

bly sports contests and other gatherlign. One exception has been ninde, and that is the leeinrer. Even Lowell Thomas, who traveled to and the nuples. Then backyards

WNU Service, Union Trust Building | er. Thomas represented many people who do considerable public speaking. I know haw difficult it is. I, myself, have been unable to accept lecture dates because it is so difficult to be certain of connections and a broadcaster has to move with the regularity of a train schedule -a train schedule in peace timethe microphane waits for no man.

There have been rumnrs of late that transportation was snngged; that because of the U-hoats, supplies were pilling up on the decks and loaded freight cars were janiming the yards and causing congestion. But the Office of War Information says that latest advices indicate that cangestlon is being lessened. In fact, the official word is: "The battle of transportation . . . at a crisis at Peari Harbor time

. . Is now being won."

Nearing Limit

I hope that this statement lan't over-optimistic. As a matter of fact, the reservation is noted that "the victories are not necessarily permanent. Our transportation equipment, with few exceptions, is being used close to Ita limits"-and there remain two situations which are not satisfactory, one is movement of oil and the other is the problem of There are, of course, movements getting the war workers to and from work.

The latter difficulty is responsible, according to some investigators, for much of the recently decried absenteelsm. To get an Idea of what the traffic

har to bear in a city where war industries are concentrated, there has been an increase of use of the Detroit street unilway systems of 76.8 per cent. The Baitimore transit line It's sald a soidier eats twice as is up 90 per cent and the Washingmuch as he did in civilian life and ton, i3t per cent. I know what these figures mean as doen unyone who has to make his way to and from seen that Inbulous city of San Diego, once a pleasant, sleepy tuwn which seemed to move lazlly with the pellcans that flew over the bay or the whispering palms. The pelicans have been replaced by planes and lt's a 24-hour town, with a 336 per cent increase in the use of its busaes

Diary of a Broadcaster

Todny I mnde it from bedsldo to desk in one hnur and 18 mlnutes, Including the time to make my own brenkfast of enffee, ponched eggs, grapefrult and zwieback (my wife is away) also to traverse on foot some 13 Washington blocks. I think that this record is not bid considering the variety of nctivitien included. I managed to henr the carly fivemlnute newsenst and sennned the headlines which told me whether the news wind was blowing in the same direction this morning that it was last night when the newspapers went to bed-in other words, was I to plow fresh fields or harvest what I could from the old ones.

I also removed the blanket that shields our three parakeets from northern drafts and walted for the welcoming chirrup that one, the lenst snobbish of the three, condescends to give me before I leave the room. As soon as I do, they all burst into song.

Walking to work in Washington these days is like reviewing the clalized practice in snow or under armies of the United Nations for a hot sun that new requirements one can spot almost any uniform between Dupont Clrele and Pennsylvanin nvenue. But it seems that the WAVES are in the preponderance. The WAACs are smart but the navy has a uniform that is a little bit less drnb than the olive. It is surprising how an elderly matron turns out in that navy blue-and-gold as smart as a mldshipman.

Washington's springtime, one of Its two benutlful sensons, is here in April-gone in Mny. First, the for-Efforts are being made to cut sythin burns with its yellow flame; down extra passenger travel by dis- then the magnolias blush and fade. and the dogwoods raise their sweet ghostliness among their darker sisters; then the cherry blossoms come the President saw fit le come nut tered over the city as well as the -and there are many of them seatwith a statement encouraging the better advertised ones along the lacontinuation of the work of lecture goon. Soon they are followed by bureaus. He expressed himself to leaves on the oaks and the elms Washinghan, on that subject—the are brilliant with the rambler roses plea for a good word for the spenk- | and you know that spring is done.

WITHOUT FARMS, RANCHES. AMERICA WOULD VANISH HE WAS a prosperous, well-fed Put Health Into Menus looking individual, beside whom I

ant in the lnunge cur of a train erosslog Nebrusku. He told me he lived la New York,

From the ear window, we could see the western Nebraska ranch hames. 'People who live in such places must be only holf human to endure such a life," he said. "For the sake of the nation, and especially in wartime, it is a good thing we have pinces like New York to depend upon." "The man who lives in that house

over there," I replied, as I pointed

to n not-too-pretentious ranch house, 'is one of the kings of America. He rules over a few hundred or a few thnusand acres. People of New York and other cities ore but his subjects. Without him and his kind your eitles would not exist. He supplies the foundation upon which not only the cities, but the nation is built. He thinks more intelligently of health insurance—you don't need than do 75 per cent of the people of points to shop for these. the cities. He represents the culture of America. He supplies the food, that first essentlni of both pence and war. He is intensely patriotic. He works whatever number of hours are required to do the job in arder that you, and your klod, mny live. He, and his kind—people of the forms and ranches and those of the rural cities and towns through which we are passing, constitute the most val- and mineral laden fruits are just uable 50 per cent of the population of our nation. They, not the people makers should have no trouble getof the cities, represent the real hu- ting your quota of two fruits, two mans of America. People of the vegetables and a citrus fruit into cities, that rancher's subjects, would your family's dlets. do well to emuinte his many virtues

and his patriotism." his kind living in the cities were not the first and most vniuable citizens of the nntion, but I told him a few plain truths, which I hope he moy think about. Without the farms and ranches, there would be no cities, and na America.

ADVANTAGES OF FARM IN 'RATIONED DAYS'

IN MANY CITIES you go to th market with the hope of getting something for the family table. It a ease of accepting, with thonks, whatever you can get. In limited quantities, you can find canned fruits and vegetables-about half the qunntity the family had in pre-rotloning days. In the line of fresh vegetables, you may find one or two varieties, but more often there is none. In meats, you may get a sirloia steak

at one time and nothing better than neck bones onother, but frequently it will be none of any kind. You do not ask for beef ar lamb or veal or pork. You ask only for meat, and are pleased at your good fortune if

How different on the farm in these war days. Mother canned the fruits and vegetables for the family. In the cellar are rows of peas, tamotoes, carn and oll the other good things produced in the garden. In the bins are potataes and apples, and on the fruit shelves are peoches, cherries, plums, berries and other fruits, with jar after jar of mother's preserves and jeilles. In the barnyard there is olways o fat chicken for the family dinner. There is o hog from which can come roast pork, chops, spareribs, bacon and hams, as well as the makings of sousoge.

There is lamb and veal and beef. them and as many as you want. necessory for health of teeth and You eat butter on your bread, the bones, and for quick healing of and of batter only mother can make, and you do not have to be tat and a la cleamargarine, or per-Ampie portuge

the markets col-

In winter it is sometimes extremely difficult ta meet that nutrition Of course I did not convince the requirement because of the searcity New York gentlemnn that he and of vegetables and fruits and their consequent high prices. Now, though prices are higher than last year at this time, they ore abundant, and most of us ean offord to spend the

extra money required to buy them. Perhaps, you have a garden this year. You're probably planning to put up most of the produce, but you aiways have some crops nyailable for immediate consumption such as lettuce, tender green shoots of onions, etc. In some parts of the country it's o bit early for some of is not a question of selections—it is these to make their appearance, but when they do, up and at them!

Homemakers are fortunately becoming more ond more conscious of the importance of fruits and vegetables in the diet, and the more so they become, the more healthy will become each generation of Amerlcans. Even those of you who have been deficient in these foods during the growing years will get much benefit from including these foods in your diet. A heavy meol colls for the light, crisp, "just right" feeling which fruits and vegetables supply.

Remember vitamins and minerals work hand in hond to give your

body health ond to keep it in good workable arder. Most vegetables hove many both minerols and vitamins. It is interesting ta know thot greens (let-

tuce, parsley, watercress, turnip greens, etc.) are rich not only in iron that mokes for good, rich blood, but olso in vitamin A which pramotes good health of skin, eyes, and keeps yau buoyant and full of energy. The greens get o nice big You have eggs when you went star far being rich in Vitamin C,

PETER AND JORN LEADERS IN THE EARLY CHURCH

LESSON TENT-Acts 2 37-41, 2:14; 4 13, boldress of Peter and John, and perceived that they were unlearned and ten is I men, they marveled, and they took knowledge of them, that they had been with Jesus --

Does the Church have a message for our day? Sometimes one wonders a bit, but a little thought indicates that if it does oct, it is not because Christianity has failed, but because Christian people have failed to declare the eternal and powerfut truth of God. The primary responsibility for any such failure must rest upon the leaders of the Church. It is instructive to see the qualities

Church effective for the Lord. In our lesson we find Peter and John doing three things. I. Decloring God's Word (Acts 2:

which made the leaders of the early

37-41). Peter and just finished the first

sermon preached in the Church, which was delivered at Pentecost. The decloration of God's truth in tho power of the Haly Spirit brought conviction of sln. It always does, although the outword indientinn of its working may not be as marked ns it was on that day. Three thousand souls were under convlction and asking wint to do to be saved.

What an opportunity for the I beg the sentence be reversed. preacher and itls fellow worker, John. How did they meet it? By | nnd \$i fine. faithfully declaring the need of repentance and fuith, and then of fellowship with others in the Church.

One mark of a reni leader for God will olways be that he preaches and teaches the message of God without nduiteration, without modification, and with plninness and simplicity.

The kind of leadership which la often magnified in the Church today and which is largely made up of personal magnetism, "pep" and fast talk, is not real leadership at all. Test your leaders by their faithful and intelligent declaration of God's Word.

11. Conveying God's Puwer (Acts 3:1-8).

"Chonnels only"-that is the function of the worker for Christ, the leader in His Church. As Mary Maxwell weil put it:

Channels only, blessed Master. But with all Thy wondrous power. Flowing through us, Thou canst use us Every day and every hour.

Silver and gold was a searce commodity with Peter and John, as it has been with many, yes most, of God'o servants through the centuries. But they did hove the blessed privilege af being channels through which the healing, eleonsing, redeeming power af God could flowand that was infinitely better.

The lome mon had long since given up hope af anything better than the few coins he could beg of the temple gate. He was like many in our hard and practical oge who see only the volues that money con give, and thus miss the real blessing of Gad.

God has for men taday, as He had for this beggar, that which is far better than gold-deliverance from sin ond liberation from the limitatians of spirit which make them content with the poltry alms of men.

Peter and Jahn were ready to be used of God becouse they were men who were not too busy to pray (v. 1). Knowing the compassion of God they sought out the one in need, and by folth put the unlimited power of God ta work on his behalf.

Gad healed this mnn's body, but what is more important, He healed Joded appetites will respond his spirit (v. 8). We need that kind quickly if you serve this delectable of healing for the wenk-kneed, lameankled, spirit-darkened individuals in our communities and aur churches. We will have it only as our leaders are men and women who are cleansed-ready to be channeis for the conveying of God's power ta a needy world.

III. Doing Goil's Will (Acts 4:13, 18-21).

The way of life of God's leaders is not an easy one, but it is a simple one. They do Ged's will-nothing tess, nothing more, and nothing else. What could be more delightful?

Peter and John had spoken the only in the name of Jesus (v. 12), Certain easy talkers within the Church who tell us that we must not ha narrow but broad enough to see willing to which augus has been antention in all religious, had bettay react that verso again.

Because they had pressind Christ, and for the other reason, they were impulsioned their released on coll the time they we did at the stone Him segmen to at a second conto the transfer of the state of Alaman a -different form to the first over test to d THE DIST CON THE THE

THEY WERE XPENDABL

THE STORY OR TARE The story of their parl in the builde for the Philipplace is being fuld by four of the five naval officers who are all that is left of Motor Torpedo Boal Squadron 3, They Are Lient. John Hulkeley (now Lientenant Commander), equadron commander; titent. H. H. Kelly, second-in-command; and Ensigns Authory Akers and George W. Cox Jr. After learning that Bearl Marbor hait been bombed, Llent. Bulbeley ordered Lient. Kelly in take three of the six largedn hoats to Hataan where they would get provisions and fuel from a submarine lender. But when they arrived, they found that the tender bad been nedered away. So they acl up headquarters in Hisimian Cove.

CHAPTER II

"Far the most part we lived on our bonts-had to, because we never knew when we would have to haul out late the bay in case of a dive-bamber attack. Anyway we land a base again.

"Next, we found our barges loaded with gasoline in drums which had been towed out into the bay for us by the navy-if they got smacked by bombs, they didn't want them burning near the wharves. There was nobady in charge but a watchman. Each boat holds two thouannd gailons, and of course it was a job pouring ail that through a fun-

"We noticed, as we poured, that this gas had both woter and rust in It-yet there was no way to strain it out; we had no chamols. What we couldn't then know was, this gas had been sabotaged. We'll never find out when or where-the guy who did It is safe, if he's alive. But someone had dissolved wax in itwax which congealed inside our gas tanks in a cont half an lneh thickwax which clogged our filters so that sometimes we'd have to stop ond clean them after an hour's run. That's the fuel we had to fight the war on, we were to find out.

"Then I went over to the section base to make arrangements for our food, and we got another bump. The navy already realized a food shortage was coming and cut us down to two rations a day-breakfast and supper. All you got for iuneh was stomach cramps about noon. There was plenty of them.

"I also thought I'd better have the doctor look at my finger. I'd snagged it a few days before and badn't pald much attention, but now It was swollen about as thick as a walnut. I guessed maybe it was n minor strep infection. What I didn't know was that out East the streptococel are bigger and meaner than bulldogs and not to be fooled with. He took one look and began to talk about the hospital, but I said the hell with that. I was the second officer of the squadron and badly need-

"We settled that I'd come over to see this doctor daily.

"The big alarm came at noon on December 10-we'd pulled up alongside a mine sweeper for water when word came that a large flight of Jap planes was headed toward the Manila area, coming from the direction of Formosa. We pulled away from the tender, out into open water, and afteen minutes later we saw them-several formations-I counted about twenty-seven to twenty-cine planes in each-two-motor bombers - lovely, tight, paradeground formations, coming over at a 1 23,000 feet. But, I thought, a les our fighters get up there and start remping their hair, those forma' t we't look so pretty. Only were our fighters? The Japs passed on out of sight over the - is to, and then we began hearby the rable of bombs—only first was fel the y called on our feet, are and bere in the water, and a. So we know the 35 bont got one. Meanwhile the 31 bont had shot down two more. After that the planes didn't bother strofing the MTB's. Guess the Jap pilots back at their Formosa base passed the word around.

offered to entry more wounded. The big base was one sheet of flame except for the ammunition depot. Only a piece of the dock was left, and through the shimmering slames you could see only jogged walls. Then we saw Admiral Rockwell-he was directing the fire apparatus which was trying to save the depot. He is a tall man, a fine figure of a sailor, but his head was down that day. In a dead voice he told us we'd better get out-that the magazine was liable to go up any minute. We offered to take him with us to Morlveies, but he said no, hls job was here, to

do what he could to save the maga-

"So we pleked up from the gutters and streets a lot of cans of food we knew we would need-they were from the bombed warehouses-

stacked them in the boat, and set out."

"I was back there a couple of days later after the fires were out." said Ensign Cox, a good-looking yellow-haired youngster from up-state New York. "They were burying the dead-which consisted of collecting heads and arms and legs and puttlng them into the nearest bomb crater and shoveling debris over it. The smell was terrible. The Fillplno yard workers didn't have much stomach for the job, but it had to be done and done quick because of dizease. To make them work, they filled the Filipinos up with grain al-

NAME AND ADDRESS OF THE OWNERS OF THE PERSONS OF PERSONS ASSESSED. NO. OF PERSONS ASSESSED. NAME AND POST OFFICE ADDRESS OF TAXABLE PARTY.

It was their first crack at the Japs. | Manila I saw something very queer -shipping of all descriptions was pouring out of that Manila breaka shootin' Texas boy. He was pour- water into the open harbor-destroyers, mine sweepers, Yangize River er than a pall of cracked lee, but gunboats, tramp steamers, all going that long, straight, pointed jaw of his heil for breokfast. And then I saw was set. Houlilian, who was firing | them-n big formation of about twenty-seven bombers. By then I was They'd picked out one pinne and beginning to learn that if we saw were pouring it up into the sky, when pinnes in the air, they would be we saw the plane webble, and pret- Japs, not ours. Then come onother formotion of twenty-nine, and still another of twenty-six.

"If they were after shipping, we shouldn't get too elose to the other boots, so I changed course. They wheeled mojestically around the bny's perimeter, and each time they Passed Manllo a lood would go whistling down and presently huge columns of black and white smoke begon rising-we could even see some "We went on back to Cavite and fires, although we were still eleven miles oway.

" 'Where in heli is our air force?' our erew kept osking me. 'Why in Christ's nome don't they do something?"

"But the thing that really got me woa that these blg Jap formations, circling the bay ilke it was a parade maneuver, each time would sail impudently right over Corregidor! Didn't they know we had anti-aireraft guns?

"They knew all right, but it turned out they knew something I dida't. For presently all twenty of Corregidor's 3-inchers opened fire, and It made me sick to see that every one of their shells was bursting from 5,000 to 10,000 feet below that Jap formation. Those pilots were as safe as though they'd been home in bed. Later I found out what the Japs apparently aiready knew-that the Rock's anti-aircraft guns didn't have the range. And only then did It begin to dawn on me how completely impotent we were.

"When the Japs eleared out," contlnued Bulkeley, "Kelly and I headed for Manila and docked about three o'clock. When we reported, Commander Sloeum told me the Admiral was considering sending our three boats on a rald off Lingayen, and were we ready? We said we were rarin' to go. So he said to stick around a couple of hours, and meanwhile to load the boats with files, records, and so forth, because they were moving headquarters. It had escaped so far, but right here on the water front it was too vulnernble - sure to get smacked. Through the open door we could see the Admiral conferring with his chief of staff.

"But just then," sald Kelly, "Commander Sloeum looked down at my arm, which was in a sling, frowned, and said I should get over to see the fleet doctor. The doctor took off the bandage and began to talk tough. Said he couldn't do anything, and that I was to get that arm to a hospital as fast as I could.

"I was dead set on that raid, but I decided it wouldn't be tactful to bring that up, so I said, 'Aye, aye, sir,' and skipped it. We loaded the April 19, 1775? boat with records, and then went back to headquarters, where we were told that the Jap convoy off Lingayen included eight transports and at least two battleships (one of these must have been the one that Colin Kelly later got), but that we weren't going to be sent. They were saving us for 'bigger things.'

"'My Godl' my junior officer said later, 'I didn't know they came nny blggerl What do they think we

"Anyway the Admiral patted Bulkeley on the shoulder and said, 'We know you boys want to get in there and fight, but there's no sense sending you on suieldal missionsjust now.'

"So that was that, and we went on out across the bay, to our thatched village.

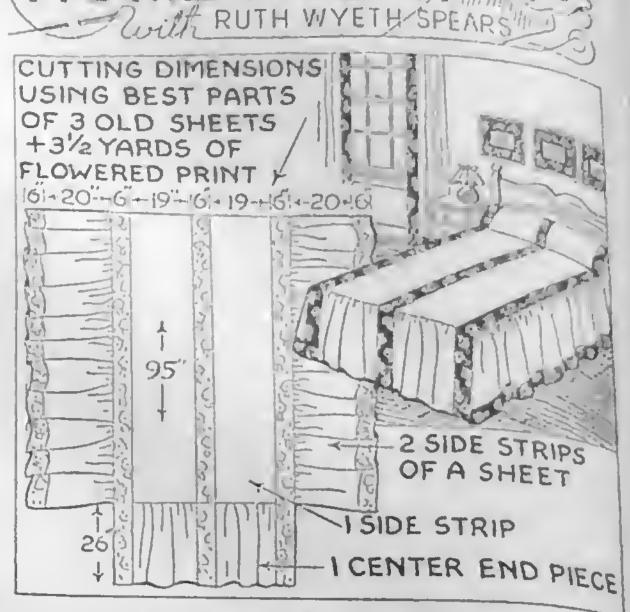

quiet for us, although my arm be-

"Presently Bulkeley dropped in on us in the 41 bont, bringing us some they did. From over in Mariveles I stuff issued by the navy to replace everything we'd lest at our quarters after the Jan 1 mbers disappeared in Cavite-a shirt each, underdrawers, a few tubes of loothpaste, and rezers-two for each bont, one for the men and one for the officers. But with each razor there were only three packages of blades, so we saw beards in the offing.

"Hulkeiny had heard about my hand from a pharmaclat's mate and ashed me if I enuld stick it for two mera days until he could relieve me. He blinealf had to be on call for equitation with the Admiral, while to ex not less Dalang a this heat for a - the duty. I said 'asire,'

THE RESIDENCE AND PERSONS.

ANY pretty flowered print may be combined with the side strips of sheets that are good after the center part has worn out. A good section may be cut from the center bottom too. The diagram at the left gives all the dimensions you need for making a spread for a double bed from the good parts of three old sheets put together with six-inch strips flowered eotton material of about the same weight.

Here, the figured goods is in n pink and white pattern that is especially effective with the white Perhaps It's Best to Tell the curtains made from old sheets. Other Side of Story First Another interesting color note is the mats of the pink and white material used for the row of framed photographs over the bed. It also edges the full white lamp shades.

HOW MUCH FOOD SHOULD YOU EAT?

You may think that food requirements were measured in vitamina but before the discovery of vitamins the amount and kinds of foot that should be caten dai-

ly were measured in culories. A calorio is o measured amount of heat, that is, the amount of heat required to raise one kilogram of water (a little over two paunds) and degree centlgrade (which Is about 214 degrees Fahrenheit). the overage diet was

Dr. Barton

made up of ane part protein-ineat, eggs, fish, two parts fats-butter, cream, fat meats and four parts starches-bread, potatoes, fruits and vegetables. In ealaries this would mean about 400 of prateins, 800 of fots and 1,600 of vegetables and fruits daily for overage man doing same work daily. This methad of calorie measurement is still in use.

In an orticle an nutritian in the Jaurnol of the American Medical Association, Drs. Eugene F. DuBais and William H. Chambers, New York eity, state:

The amount of heat given off by the restling mon of average size (at eamplete rest and na digestian going an) is about equal to the heat of a 00-watt electric bulb ar the flame of an alcahol lamp about one lneh high. A man exercising hard equals the heat of 10 such lamps. As most of us are not at complete rest all of the time, nor are we working hard all the time, the omaunt of food needed will depend upon how much we rest and how hard we wark. Thus one table of the number of enlarles needed by various trades is:

Men: Tnilor, 2,000; bookbinder, 3,000; shaemaker, 3,100; eablnetmaker, 3,500 to 3,600; stone masan 4,700 ta 5,200; waad sawyer, 5,500 to 6,000. There are other trades such as moulders ar foundrymen, stokers, malten metal workers and others where 0,000 enlories are needed dally.

Women: Stenographer or office warker, 2,000 calaries; seamstress with hand needle, 2,000; seamstress with machine, 2,100 to 2,300; bookblnder, 2,100 to 2,300; household worker, 2,500 to 3,200; washer-warnen, 2,900 to 3,700.

Facts About Acne, Pimples

Although the various methods of treatment help many eases of aene (pimples), the actual cause of aene Is not fully known. Because it oecurs at or near the age of puberty, most physicians believe that aene is in some way connected with the changes in the glands which causes boys and girls to emerge into men and women.

In the Journal of Clinleal Endoerinology, Dr. Hamilton, Yale medieal school, reports results in cases where he was able to bring on aene in certain individuals. He found that giving the hormone or extract of the male sex gland to boys who had not reached puberty, some of them developed blackheads, pimples, with and without pus formation. When the treatment with the sex hormone was stopped, the plmples became smaller and disappeared. When given again, the pimples returned.

This does not mean that this gland extract is the only factor entering into the cause of sene as dlet, heredity, and Infection may also be factors. However, despite other factors, the pimples appeared only when the sex hormone was giv-"There seems to be something in this male hormone substance that stimulates the sebaceous or oil glands of the skin."

For this reason, Dr. Hamilton suggests that as there is some relation between the thyroid gland-the master gland of the body-and the sex glands, there is logical reason for the use of deslecated thyrold gland Navy, Marines, and Coast Guard extract in cases of sene at the time of puberty. The thyrold extract che ke any excess of oil pouring out from the il glan is on the skin and atlimulates the ekin cells to a more t an al activity. The thereld extrust stimulates all the body procs and therefore the skin Fx-. Three Navy Bombers Forced Down Here

A stir of excitement swept over Marlinton last Sanday evening when three large Curtiss-Wright Navy dive bombers encountered weather-heads and were brought to a forced landing on the Marlinton airpart

According to various reports, the coung aviaturs who were ferrying the bombers across this area, became lost in the difficult weather, and finally sighted Carl L. Sheets, Marlinton' flying mayor and business man, who was aloft in his private plane, and they followed him to the airport.

Hundreds of local citizens hurried to the landing field to view the fighting planes, gaickly congesting the road and swarming over the field.

Navy pilots were still grounded here nivport field following henvy rains. mantled and trucked to the Elkins airport before they could continue the flight to their destination.

The Navy fliers have been guests at the Rexrode Tourist home during their stay in Murlinton.

Encampment In County

Although no official confirmation has been given, there has been much talk in Marlinton recently concerning reported visits of U. S. Army afficers purported to he contemplating urea, and other facilities for the accommodation of neveral thousand soldiers who would be given instruction in mountain warfare in this vicinity.

S., following Nash's nerival at Allied headquarters recently. Nash visited Halsey during an Inspection four of Pacific Islands in which Now Zealand troops are netire.

TUNISIA:

Smooth Teamwork Irresisibly the Aliled offensive in North Africa had rolled on loward Tunis and Blzerte.

Like well-co-ordinated teams the various commands perfermed their tasks. Principal objective of the British First army had been the Axis last mountain barrier before the plain of Tunis In the Medjez-Et-Bab sector. Chief assignment of Lieutenant General Patton's Ameriean troops had been the overwhetming of three enemy hill positions on the road to Bizerte. And although the American forces ran into heavy counterblows in their enveloping tacties around Mateur and Tebourbo, they had continued to drive ahead.

While these two strategie movements were being earried out as a prejude to a combined Allled assault, French troops in the south executed a maneuver that had cut the Pont-du-Fahs-Eafidaville road end exposed the flonk of the Axls troops facing General Montgomery's Eighth army.

While the Germans faced the inevitable decision of final surrender or snathlistion their commanders were using every possible device to slow down the Allied advance. Resistance against the British First sermy had stiffened sharply at the crest of Hou Aoukaz mauntain, overlooking the valley to Tunis.

TRAINING: For Postwar Youth

The idea that the youth of Amerlea, making use of industrial plants and military eamps might well give a year's service to their government In the postwar era was advanced by President Roosevelt.

Declaring that his recent Inspection trip of war activities had convinced him that the armed forces and the home front factories are In their stride, the President said he was wondering what could be done after victory is won, with camps and plants in which millions have been invested. While he had no specific program to offer, he emphasized the benefits in physical condition and mental alertness that men and women in service and war-worker uniforms had realized in the last few months. He indiented he thought their training should be extended to nll young men and women in some form after we win the war.

Any program that might develop, he said, probably would be only partly military.

WITHHOLDING TAX:

Painless Extraction Southing words to taxpayers faced with rising federal levies were apoken by Chairman Doughlon of the house ways and townes committee who derlured that the 20 per cenwithholding provision of the pending pay-as-you-go tux bills "will not resull in a single extra dollar being taken from the taxpayers' packet-

"The proposed 20 per cent withholding is only a method of collecting currently all or part of the taxes imposed by the existing tax laws," he said,

Mr. Doughton said that from same persons will be withheld more then in needed to pay their taxes and from others, less. Refunds will be made later if too much has been

"All safery and wage earners will be called upon to file a regular incame tax return on March 15," he sald. "The amount which has been withheld from Heir wagos will be credited against the actual tax owed."

RUSS-POLES:

Issue Is Territory

Territorial differences came to the fore as the principal issue of stake in the Potish-Soviet controversy, atthough the break in diplomatic relations had been caused by a demand of the Potish government-inexile for on investigation of the aileged massacre by Russians of 10,-000 Polish troops in the Smolensk region.

In a slatement which neither opened nor closed the door to reconciliation, Premier Sikorski affirmed the Potish government's policy of alming at friendly relations with Russia, but chaltenged the Soviet's right to claim the western Ukrnine end western Belo-Russia.

The Poles demand a return of the eastern part of the territary they ruled before their 1939 collapse. The Russians who took this lond over and were in turn routed by the 1941 German lavasion, say that the land ls historically theirs.

Whether the controversy could be breached remained a problem for United Nations' chancellorles to worry about.

ALEUTIANS: RCAF Joins Raids

American airmen keeping up their marnthan bomhing tactics in the Aleutlans were joined by Canadian pilots flying U. S. Warhowk fighters In attacks on Jap-held pasitions on Kiska.

Whether the bombings were a softening-up prelude to American land and navnl action against the Aleutians or a diversion to hamper enemy octivity observers dld not know. But they were unnnimeus in their opinion that any assault on the Jap-held Aleutian positions would be considerably more difficult than hod the American offensive against South Pacific Guadalcanai.

A naval communique said that the continuing ralds, made by Liberator and Mitchell bombers and War- great deal of reading. Glasses were hawk and Lightning fighiers scored almost a badge of scholarship. It damoging results on the main camp

MASSACRE: Japs Ape Nazis

Employing the same terroristle technique that their Nazl partners had used in massacring the lnhabltants of Lidice, Czechosiovokia, Jap troops slaughtered every man, woman and child in the constal arees of China where many of Maj. Gen. James H. Doolittle's fliers had landed after the bombing of Tokyo.

This latest seguel to the Japs' execution of some of the American fliers captured after the roid was related by Secretary of the Treasury Morgenthau, la an address in San Francisco.

Reports covering the Chinese "Lidice" were received from Generalissimo Chiong Kal-shek, who declared that the Japs had reproduced on o wholesale scale the horrors which the Nazla had inflicted in Czechoniovakla.

HEAD INJURIES

For a number of years I treated all the injured athletic atutents of a large university. Fortunately, most of the injuries were cuts.

bruises, dislocations and occasional fractures, with not infrequent head injuries chusing unconsciousness. For many years also I treated all the injured nmateur and professionnl boxers and wrestiers in which head injuries were not uncommon, While most coses of head concussion recovered

Dr. Barfan

consciousness in minutes and often seconds, I often wandered if I made them take sufficient rest before resuming athletic octivities.

This whole question of how soon after a blow that hos caused uncansciousness, the patient shauld resume his regular occupation, has been studled by Dr. H. Catrns: sonie of his findings are recorded in the Proceedings of the Royal Society of Medicine.

"In deciding when a patient aboutd be fit to return to wark, it is necessary to hear in mind the severity of his injury, and the best yardstick of present available is the length of time he was unconscious after the injury. The shortest time In which ability to earry out full work may be expected to return is as follows:

"If unconscious for five minutes to one hour-four to aix weeks. "If unconscious one to 24 hours-

six to eight weeks. "If uneanselous one to seven days two to four months.

"If unconscious over seven daysfaur to eight months.

"If patient was very tired when injured, more time should be given. The type of work must also be considered as a simple task may be resumed earlier than one which colls for much brnin effort.

"Almost every patient who makes m full recovery from conenssion suffers at a certola stage of his reeovery from headaches. In mild eases headnehes usually occur early and disappear, whereas in more severe eases heodaches appear much later, in fact after patient is well enough to return home though not to work."

America Becoming Near-Sighted Nation

There was a time when a man or woman wearing glasses was thought to be a student or one who did a was a rare thing to see a child with reaction ogainst all things military glasses and many wearing glasses were doing so to correct a squint or crossed eye.

Within the last 20 years there has been a great increase la the number of men and women wearing glasses and glasses on school children no longer attract attention.

Most of us will likely attribute this Increase in the number wearing glasses to the examination of the eyes of school children and to the education by deportments of heaith of the importance of hoving the vision corrected in those afflicted with shortsightedness, longslghtedness and astigmatism (objects not seen distinctly). The last war also taught the value of acquiring proper giasses as many men were rejected for poor

However, we learn from the Better Vision institute in one of their monthly releases that America is becoming a nearsighted nation. Every 10 years the figures show that vision is becoming narrower and human eyes, which from the beginning of history had been adapted to far A potential era of "unparalleled sion when fixed on neur objects not very far from the end of the nose.

What is causing the population to hecome nearsighted?

Same research workers on the eye state that (a) living conditions today finds man looking ni "hear" objects instead of "far" or distant objects, and (b) nearslyfiedness anumn to he handed down from parenis to their children.

Today, education has become almest universal and children start to read at an early age. Occupations are indepen for the most part and muttern living conditions require almeni continuous class vision.

U. S. Army Is 'On Alert' For Chemical Warfare

Many Developments in Gas Warfare Date From World War I; America Thought to Have Greatest Potential Gas Offensive.

> By BAUKHAGE Nesos Analyst and Commentator

WNU Service. Union Trust Building, Washington, D. C.

Some days ago the British short wave radio, beamed on Germany, was telling the German people, who dared to ilsten to the forbidden words, that if their armies used gan against the Russiaus, the British would retaliate and paralyze the German eitles with gas bombs from the air. Just about that same hour, I was enterling the Army and Navy club in Washington with a short, vigorous, bright-eyed general, whose mentul agitly makes up for his fack of length. It was no colucidence. I was there to learn something more about chemical warfare and I know of no better way than to pump Brig. Gen. Alden H. Wnitt of the chemleal warfare service and whose book "Gas Warfaro" has sold out twice in Washington book stores.

There was, however, n coincidence connected with that visit, for as we walked into the great, crowded din-

Soldiers sintlaned at Camp San Luis Obispo, Calif., ontilited with now typo training gas masks.

Ing room of the club, Waltt paused to apeak to a gray-haired man in but io use force by a civilina clothes with a ribbon la his should do this with the particle of the should be possible. Not the particle of the possible. femiliar figure-Amos Fries, first general of the chemical warfare service. He, of course, is retired

I recalled that shortly after the First World war, the activities of General Fries got under some peopio's skins. He was a hyper-enthusiast over his specialty, and ln the which comes after a war, the cynics used to joke about the stenographer who transcribed her symbols so that o letter wos sent addressed to the "comical" warfare service.

New Emphasis

But Fries persisted and maneged to preserve his unit ln o tight little Independent group instead of having Its activities scattered oil over tho other services. As far as the publlo goes, very little attention has been paid to this arm of our military offense and defense. It moy, however, become very prominent before the war is over and some people soy that day is "Imminent."

If gas comes, the United States wlii be prepared for it. From an organization with 94 officers in the thirties, the chemical warfare servico has grown until its officer personnei numbers "many thousand" (I can't reveal the figure) and many of them are with combat troops today where they are responsible for the use of smoke screens and for Incendiaries—the fire bombs and the flame throwers.

I have witnessed demonstrations at the Edgewood arsenal near Baltimore, and although I cannot report the details, I can say that some of the effects were remarkable. You ought to see a steel tank or a conerete plilbox go up lu flames when it is "lighted" by a flame thrower. It is unbelievable to watch.

There have been, of course, many developments in this little-discussed wenpon of warfare since gas was first used in World War I by the Germans and used so successfully as rallway state & and yet so stopfdly. The attack took the British and French colonial troops utterly by surprise and We altered to the Clermans had had the sense to pur eyes, until tem eyes need help follow it up, they could have broken fines and reached Calals,

3. What is an apostate? 4. What is a will-o-the-wisp?

5. What is a chinook? 6. What two large cities in the United States, one on the Eost

const and the other on the West chast, have the some name? 7. What is a foot-pound? 8. What does nodir mean?

9. In what countries are rattleanakes found? 10. What cruiser is called the "one-man fleet"?

The Answers

1. Two pounds.

2. Steel sleip.

3. A renegade. 4. A mysterious light that appears above morshes or stagmant waters.

5. A wlad.

6. Portland, Mnlne, and Portland, Oregon.

7. The energy required to lift one pound to the height of one foot. 8. The lowest point

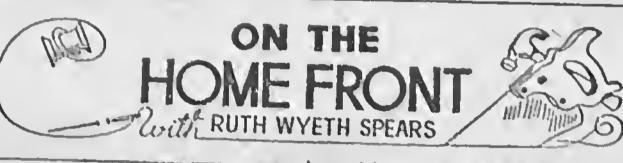

Fight the Forgery Racket! BY FRANK J. WILSON Chief, United States Secret Service

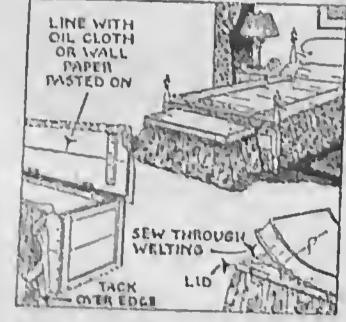

O YOU receive cheeks from the Uolted Stotes government? If you do, then look out for the pen-ondpaper plrate—the check forger!

Millions of government checks nre sent to dependents of men in the army oud navy of the United Stales. Millions of checks are sent to people who receive sociol security benefits. Whenever one of these checks is dropped to your mall box by your mail corrier, it presents an opportuoity for n check thief to steal It. When that hoppens, it may be mooths before the government can send you onother check to replace the one which was stolen.

The United States secret servlee, n branch of the trensury deparlment, wants to put the check thief and the forger out of business. If you will help yourself, you will keep the crook from helping himself to your check.

Put o good lock on your mull hox, if it does not olreonly hove one. A lock may prevent n loss, Have your name printed clearly on the hax.

A SMARTLY flounced blonket chest with contrasting cushlon serves os n convenient sent; and extra covera are right at hand on chilly nights.

Plan the size of your chest to All your needs and space. It may he made of one-lack plue and should be about 17 luches high without the cushion. Moke the frames with double fuliness—that ta, twice an long as the space it is to fill after it in gathered. The

Lake City, because it is said to have fought in more actions then ony other surface vessel in the history of the United Stotes navy.

Hard to Stomach

The smallest member of the United States senate was Georgia's Alexander H. Stevens, later vice president of the Confederacy. He was less than five feet tall and weighed somewhat under 80 pounds.

One day an oul-sized western congressman, stung into a fury by the barbed remarks of the little Georgian, shouted: "You! You! Why, I could swallow you and never know I'd et n thing!"

Replied Senator Stevens: "In that ease you'd have more brains in your belly than you ever had in your head."

Exploiters Not Wanted

The mining industry of the United States is so gigaptic that it dwarfs imagination. Production of a top of steel requires two tuns of coal. In 1942, it required the coking of 75,-000,000 tens of coal tu smelt 60,000 000 tons of pig iron. An output of 70,000,000 tons of pig iron and 97,-000,000 tons of steel ingots is expected in 1943.

It takes 7 thus of copper for one winute of combat by 50 fighter planes and this means from 200 to 700 tons of copper ore. Other metals are used in proportions.

But ceal is required to produce the heat to make most of them usable. It is the major source of energy in the United States. The railroads used \$110,000,000 tons of coal in 1942; public utilities, 68,000,000 tons; and 135,000,000 tons went for necessary heating comfurt.

There is no excuse for continuous labor warfare in our coal mines. Neither the public nur the majority of the employers want to exploit the ceal miners. The vice that has caused wars for centuries, namely, the greed of a few leaders for unreasonable power, is causing truuble in our coal mines. The few who would exploit a governent, a mine ur a group of workers for selfish purposes, are the ones who cause the millions of ordimary citizens, including the miners themselves, unnecessary loss, grief acd suffering.

It is time that dietatorship in either labor, industry, or government be reded.

Politics vs. The War

When Franklin D. Roosevelt subsited to the "forced draft" in 1940, it was freely forecast that should he he elected, he would again be a candidate for a foorth term.

Now that time has come. The drama are beginning to best again to win the country to the belief that wa have so far deteriorated as a neople tal there is but one among na qualified to rule Twice. from the When House steps, New Dealers have the the amore in recoul weeks river in most be Reservedt again.

ROYAL DRUG STORE Marlinton, W. Va.

To Our Savings Depositors:

Due to a great reduction in our loans and the decrease in demand for sound loans and the very low yield in Government and other high grade bonds of reasonable maturity, which make desirable bank investments, we have found it necessary to reduce the interest rate on savings deposits to one and one-half (11/2%) per cent per annum, effective on JUNE 1, 1943. Our action is in conformity with sound banking practice.

We regret that conditions over which we have no control make necessary this change. The business which you have entrusted to us through the must forty-four years is appreciated, and we invite you to continue to make use of our facilities for all your banking requirements.

THEY WERE (PENDABI

THE STORY SO PART The story of their part in the battle for the Philipplace is being told by four of the five unval officers who are all that is left of Motor Turpedo Bont Squatron 3. They are theut, John Bolkeley (now Lieutenant Commander), aquadron commander; Lifent. H. H. Welly, accoud-in-command; and Covigus Authony Akers and George E. Cox Jr. After Pearl Harbor, Lieut. linkeley orders flient. Kelly to take three of the boals to Dataan, where they set up hendquarters. Kelly has a hadly gashed finger, but doesn't dore take time fo go to the bospital, as things are moving fast. Ourling the first hig air raid the PT bonts shot down three Jap dive hombers. Kelly is speaking.

CHAPTER III

"When Bulkeley got back he took one look at me and ordered me to the hospital at Corregidor. But when we got there they told us that beautlful blg modern one-thousand-bed hospltal had been abandoned. There It was, I dan't know how much it hod eost, na uselesa to us as a Buddhist monastery. The potients had all been moved down late one hundred beds in one of the tunnels in the Rock. I wasn't so delirlous that I couldn't figure out why. Because with no olreraft or nntl-aircraft protection, that big expensive topside hospital was just an unprotected torget.

"The next I remember was down in the tunnel in the nrmy hospital under Corregidor, the army doctor field. His plane was the third, and asking me whot treatment I'd hod he said as he put his wheels on the as he cut the shirt off my back-it

"But the thing that Impressed me most-even then-was the army nurses. There were fourteen of them on the Rock, nod remember, I hadn't talked to a white woman since we sailed from the States. Heretofore, I hadn't paid much attention to women, but somehow the war and everything made a big difference.

"Or moybe it was Peggy herself, becouse she was a very cute kid. A brunette obout medlum height ond very trim, but mostly it was her green eyes, I guess, and a eute woy she had of telling you very firmly what you had to do, so that you grinned, but just the some you did it. She started right in bossing me around while she belped eut off my

"The whole ormy was listening in," sald Bulkeley. "Don Bell, that Manila rodio announcer who they say was shot by the Jops the first day they entered the elty, was always encouraging. And even more so was KGEI from the American west coast, telling us we wouldn't be forgotten, that the people knew we were putting up a mognificent

"it came at eleven at night," Bulkeley went on. "I had my three boats out there by 11:30. Funny thing, that old ship had been an aircraft carrier in the bottle of Juliand-first boat ever to lnunch o plane in actual battle. She survives the whole German Imperial fleet and more than twenty years leter ends up on an American mine halfway round the world.

I. Spiritual Life and Power Is God's Glft to Bellevers (vv. 14-17).

The Holy Spirlt was received by these early members of the Church by the laying on of the npostles' gunning them until no one could hands, but later He came directly Into the believer's heort the moment he had faith in God. This Is now our blessed privilege, and the provislon for our every need as follow-

What n glorious truth it is that the believer is indwelt by the Holy not just a power or influence (I Cor. "That night Peggy, who wos on 6:19). Thus every believer, includnight duty, got o few minutes off log the humblest as well as the obout one o'eloek to come in ond greatest, has in him the One who

ond finolly said she guessed il -is thus avoilable to every true and wouldo't hurt if I went in oad loy yielded believer, as God's free gift. Gone then is oll boasting of our bunk next to them, so I could hear own strength, ond gone ore oll exeuses for weak ond eareless living. "They'd wolked two hundred kilo- The power and grace are His, and

(vv. 18-24).

Men of this world are so used to putting their trust in money that they come to think that one can buy anything. To them every man ond every desirable thing must have its price. Let us be cleor that there are men who eannot be bought, and that the best things in life bear no price tog. A mother's love, friendship, fellowship with God-prieeless they ore, but not for sale.

Above oll let it be eleor that eternal life, and the power of God the Holy Spirit, eannot be gained by piling up good works, nor by payment in the coln of this world.

Simon Magus wanted this power and the rest were jammed. He said all happened so fast we couldn't was any more to be consured than tell where the Jap fire was coming many in the Church today who are from. At the end of five minutes, doing the same thing, though by

> with holes. Our tank was the only eight gifts seek to gain control of church organizations? Their efforts are doesned to ulti-

Spring Luncheon

Rationing doesn't mean that you have to give up entertaining entirely. True, you may be serving

dishes you've never served before. but if you've tucked your thinking eap at the right angle, you'll find many things

with company manners which won't take too many ration points.

Be elever with your knives in shaping fruits and vegetables into attractive shapes and sizes for your guests, and use bright colors for garnishes and table accessories. Add a good portion of your own charm to make your guests feel at ease. and Madame, your entertaining will be a success!

Tulip-like tomatoes are a pieture on any spring luncheon table. *Tulip Tomatoes Fitled With Shrimp. (Serves 6)

6 tomatoes

1 cup finely diced celery 2 cups canned shrimp

1/4 cup french dressing 1/3 cup mayonnaise I tablespoon lemon julce

Dash of cayenne pepper

Cut tomatoes in sixths with sharp knife, cutting through outside of tomatoes, and just enough so that each section can be pulled back to

form a petal. Marinate shrimp in french dressing for 1/2 hour. Drain, then eombine with celery, mayonnaise, lem-

on juice and cayenne pepper. Chill. Sprinkle inside of tomatoes with salt, then fill with shrimp mixture. Garnish with whole shrimp. Smart idea for salad plates is to

include a small secop of two or three different kinds of salad to make a picture plate. Here are two splenoid ideas:

Lemon Sunshine Salad. (Serves 6)

I package Iemon-flavored gelatin

1 cup boiling water 1 leaspoon salt

I tablespoon lemon juice or di-

luled vinegar

I cup cold water

1 cup finely shredded cabbage

1/2 cup finely grated raw carrot 1 tablespoon minced onion

Dissolve lemon-flavored gelatin in boiling water. Add salt and lemon juice or diluted vinegar and cold water. Chill until mixture begins to thicken, then add remaining ingredients. Do not shred vegetables

loss of vitamins will result. Pineapple-Coltage Cheese Salad.

until just before using or a large

(Serves 6) M cup collage cheese

14 cup nuls, chopped I lablespoon pineapple fuice

l teaspoon mgar

6 slices plueapple, fresh or canned Green or red pepper Letture

M cup salad dressing

Washington Diges Air Corps Cuts Red Tape With Absorption of CAP

Student Pilots of Civil Air Patrol Are Vital Link In Nation's Defense Chain; Valued Services Now Recognized.

> By BAUKHAGE News Analyst and Commentator.

WNU Service, Union Trust Building, I is about to give them Washington, D. C.

As the tempo of American activity on the foreign fronts moves with an accelerated beat, it is pleasing to note that a lot of red tape la Wanh- have jobs as instructors, ington is being rolled up and chucked | pliots soon. lalo official westebaskets. One example is what the air corps is trying to do to utilize every ounce of humon and mnterlnt resource that is available.

When war comes, there is niways sharp cross current of human emotions-the good old one of selfpreservotion, and the equally old and much better one, from the standpoint of the notion, of patriotism. And, for opposite reasons but with the same result, both meet with obstacles. Many injustices occur in the selection of mea for military servlee. Many ardent and vnluable men are stopped from rendering the servlee of which they are capable and which they are onxious to furnish.

Red tape is the answer. But red porting and recording inpe is bound to tongle nny hercuiean effort when n peaceful nation is not checked and across turns into n beiligerent.

Drab Duties

The intest step in removing the red tape that was holding back a iot of valuable human power wns the absorption of the Civil Air Patrol by the air eorps. As this is written, the decision is being made as to which administrative group will take over this body of patriotie fliers who hove been furnishing their own plnnes and their own services, uasung and unhonored. Most of their duties hove been drab, and in many eases, slultifying because of their Indefinite, qunsi-military slatus. They are not n parl of the nir corps.

Another important step forward is also under wny which will bring that group of unselfish young men into active service after months of mornle-breoking waiting-I refer to the Civilian Pilot trainces, most of whom ore now sure of active duty as instructors ar flying codets. They, too, have worked without compensotion other than subsistence, and hove socrificed time, earning eapacity and opportunity to continue their normal civillon careers. They are now being grodually obsorbed into the oir corps, too.

Few people in the country outside of the fomilies of the members are fomiliar with either the Civil Air Patral, the student pilots of the War Training program ar even that other group af a million ond a holf voluntcers who make up the oircroft warning service.

The Civil Air Potral received same publicity far its important port in offshare duty in the campaign which stapped the submarine activities off the eastern coost of the United States. These men were pilats wha awned their awn planes, took their special training ond received only gasaline ond o smoll fee far depreeiotian while an netive duty.

Spotters for 'Tough Guys'

They ore o vital link in that choin af nir nnd surfoce guardians wha we are now at war, the Office of bership if they are to have a job. sub could hit bottom before the pilot could get over his larget. Their chief function was to piny bird-dog for the "fough guys" carrying heavier depth bombs.

Civil Air Patrol did invaluable but less romantle service in carrying | vital machine parts between factorieg. It is now possible that some of these men and women in the interior of the country who have been making uninteresting overland dights from here to there may get a which of son air, too, in any case, the red laps between them and the sie command has been severed.

If not treduteatly, at least practity by feating notices thealty, "they're in the army now." As so the tays in the Circ war tealulus program, who have been corre. He was a .. ?" married headens and waters at his me affective neithing per dem, a bill in congress I not be site in
